

EXECUTIVE PROFILE**Amy Dobrikova**

At this pivotal moment of growth for the EV industry, I look forward to leveraging my professional experience to bring Blink's advanced charging technology to public and private fleets alike.

Vice President, Fleet Solutions

Amy brings over a decade-long career in the transportation and automotive industry, with experience ranging from but not limited to business development, sales, strategy consulting, and marketing. Amy has an outstanding track record for successfully launching fleet programs across the automotive industry. Before joining Blink Charging, she worked closely with some top 100 commercial and government fleets, including GE Capital Fleet, USPS, FedEx, UPS, and Bright Automotive, where she sold \$30 million in pre-orders for the Bright IDEA three years before production. Amy will be responsible for expanding the Blink product line and services to better serve public and private fleets, a sector critical to the energy transition and primed for electrification nationwide.

Her passion for sustainable transportation can be proven through her impeccable leadership and volunteerism with various groups, such as the NTEA's Green Truck Association, where she served as the chairman.

Mrs. Dobrikova holds a bachelor's degree in Business Management focusing on Organizational Leadership from Anderson University.

Blink Charging

Founded in 2009, Blink is dedicated to slowing climate change by reducing greenhouse gas emissions caused by transportation. We're a driving force in the EV industry, paving the way for the growth and adoption of electric vehicles.
